

# postcare 2.0

**Informing the Care Services Workers on Posting Rules**

Info Lab days in Poland, 19 May 2023 and 31 August 2023

## Minutes

One of the best dissemination tools we have in the Postcare 2.0 project are the posting labs. On 19 May 2023 there was organized the first Info Lab day and it was attended by 26 participants. On 31<sup>st</sup> August 2023 the European Labour Mobility Institute has organised an online training entitled “Summer ABC of the Posting of Workers”. The training was conducted by Dr. Marek Benio. There were 23 participants. It was addressed to specialists who are new to the topic, who have little experience in the posting of workers and those more experienced who would like to systematise their knowledge. The online training lasted 3,5 hours and comprised of 4 parts:

1. Freedom to deliver services in EU and its limits
2. Labour law (employment conditions)
3. Social security
4. Miscellanea (including tax regulations)

The aim was to outline the legal framework for the posting of workers and explain the difficulties in arriving at full legal compliance when faced with differences in the labour law, social security and tax systems of the sending and receiving Member States. Practical questions placed at the ELMI Online Information Center in the first 3 months of its operation have contributed to the content of the training.
